Costa Mesa, CA 92626

Dear Jim,

It was a pleasure working with you and your staffs on the renovation/addition of the La Puente Community Center Complex, (Community Center, Gymnasium, and Youth Learning Activity Center), especially, considering the fact that some of the buildings were over 60 years old. Your input was invaluable in our efforts to provide the community of La Puente an architecturally pleasing complex, while incorporating numerous green design features and sustainable, energy efficient enhancements that are consistent with today's Green Building Codes. Your recommendations, coupled with collaboration with our design team, allowed the utilization of natural clear story lighting, day-lighting with Sola Tubes, recycled green building materials, drought tolerant landscaping, high efficient lighting, (T-5 fluorescent, compact fluorescent, and LED lighting) re-use of existing materials, retractable shading for the Community Center's Atrium, and the installation of high efficient HVAC units.

Your staff's efforts to provide a safe, secure, professional build-out in time for the public to utilize the much anticipated Community Center Complex, during the holidays were sincerely appreciated by the City of La Puente and the Chevron management team.

I look forward to working with you again.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Casey".

Kenneth W. Casey, BEP, SDP
