**RE: Construction of Copper Mountain Colleges Bell Center**

**SUBJECT: Letter of Recommendation**

**To Whom it May Concern:**

My name is Dan Cain and I am the Chief of Facilities at Copper Mountain College and retain the responsibilities of managing construction projects here at the college. In the fall of 2008, the College entered into a contract with Day Construction to construct a 37,000 sq. ft. multi-use sports. The project was budgeted at \$16,646,075 and was completed by Day Construction in the spring of 2010 with no delays and on budget.

I have been in the construction industry for 40 years and can count on one hand the general contractors I would not hesitate to use again. Day Construction is in that count. They were amendable to any crisis that arose and were a pleasure to work with. The College is extremely pleased with the quality of the construction we received and the level of cooperation we experienced from day one of the project.

I would highly recommend Day Construction and can be contacted at the number listed herein for any consultation.

Sincerely,

Dan Cain  
Chief of Campus Facilities
