RE: Letter of Recommendation for Day Construction

TO WHOM IT MAY CONCERN:

I wish to acknowledge the high standard of performance and professionalism exhibited by Day Construction Company on two consecutive projects for Huntington Beach Union High School District. The first project was a \$13 Million Dollar two story masonry classroom complex at Ocean View High School. The second project was a \$14 Million Dollar modernization and seismic upgrade of seven masonry/wood frame one story classroom buildings.

Particularly noteworthy was the attitude and cooperative reactions by key Day Construction personnel to difficult and tenuous conditions caused by situations outside their scope of work.

I was the Inspector of Record for both projects and I must say that I was continuously enlightened and impressed by Day Construction and the respective superintendents. Clearly, I would endorse this Company for additional Title 24 construction.
